

# Spark - Pairing Fret Zealot

Updated October 16, 2019

[Spark - Learn and Play Guitar](#) is an app produced by Positive Grid Inc for Music education on iOS devices. It is compatible with Fret Zealot for displaying chords, lessons, and songs.

In the Spark app, if you are logged in, press the 'profile' icon in the top right. From this screen, click the 'settings' gear in the top right.

At the settings screen, you will see a button to enable Fret Zealot support. Please turn on your Fret Zealot before toggling the Setting to 'On'. You should see the text 'Connected' within 15 seconds, indicating that the Fret Zealot is connected and available for play.
